TASKS

POINTS

CSS Selectors

8.5 POINTS

## Task 1 - CSS Selectors

Select the **snowboarder**. Use the file [task.css](#) and only modify the selectors. `#task-0` is provided to you as an example.

### General Information

Your working space is the folder `work/htmlcss/`.

⚠ You can only change files under `work/htmlcss/src/`. All other files will be reverted for the review process.

### Rules

- You are only allowed to use **1 selector per task**:
  - Allowed: `#task-1 .snowboarder {}`
  - Not allowed: `#task-1 .snow`, `#task-1 .snowboarder {}`
- The selector **must** begin with the task ID eg. `#task-1`
- You are **not allowed** to edit the HTML.
- You are **not allowed** to use the `data-target` attribute for your selector.
- You are **not allowed** to use any of the following selectors:
  - `:nth-child`

- `:nth-last-child`
- `:nth-of-type`
- `:nth-last-of-type`
- any use of `+` or `~`

## Available files

DESCRIPTION	FILE
HTML file: <b>don't edit this</b> but use it to see your tasks and if the your selectors are correct	<a href="#">src/task.html</a> 
CSS file: you work here	<a href="#">src/task.css</a> 
Unit tests to check if your selectors are correct	<a href="#">tests.html</a> 

## More tasks

-  More HTML/CSS tasks are part of the [frontend](#) module. Please see the first part of that readme for more layout and styling tasks.
